Cognitive Therapy and Research

Volume 13, 1989

Cognitive Therapy and Research is a broadly conceived interdisciplinary journal whose main function is to stimulate and communicate research and theory on the role of cognitive processes in human adaptation and adjustment. It attempts to integrate such diverse areas of psychology as clinical, cognitive, counseling, developmental, experimental, learning, personality, and social. The journal publishes experimental studies, theoretical articles, review articles, technical articles, methodological articles, case studies, and brief reports. The majority of publication space is devoted to experimental studies.

EDITOR
Philip C. Kendall, Department of Psychology, Temple University, Philadelphia, Pennsylvania

ASSOCIATE EDITORS
Constance L. Hammen, University of California, Los Angeles, California
